

Introductory Cold Wax & Oil Paint

Workshop Description:

Discover the luscious, expressive quality of cold wax medium and oil paints using new tools and techniques to create rich luminous surfaces.

The emphasis will be on the basic understanding of supports, tools, materials and techniques. Participants will be encouraged to experiment and play freely without forcing an outcome. There will be plenty of demonstrations and discussion about allowing the work to gradually unfold in the process of building up layers to create abstract paintings on paper. We will create a series of 'quickpaints' on paper using a limited colour palette.

Payments are due when placing your name on the booking list.
